SAFETY & SECURITY SERVICES

Security is our top priority at San Diego Theatres. We thoroughly stress the importance of keeping everyone at our venues safe during both public and private events, and as such, continuously assess and upgrade our security offerings. San Diego Theatres has made significant investments in equipment and training on behalf of our clients. The following security procedures are currently in place for all events:

- The security advance for shows will be done with the San Diego Theatres Public Safety Manager.
- San Diego Theatres requires all guests attending an event pass through metal detectors upon arrival. We will determine the number of metal detectors employed at the main entrances based on attendance, in order to provide the most efficient ingress of guests for an on-time performance start, and to maintain the quality of the event experience. The Stage Door entrance, which is used for artist and exit typically doesn't include metal detector unless pre-advanced with Production.
- All personnel administering the metal detectors, screening bags, and providing venue security will be an additional charge to the Promotor or Licensee.
- San Diego Theatres does not permit firearms in the venue (Back or Front of House) at any time, licensed or otherwise. Exceptions can be made for security or police officers only with the advance notification and approval from the Public Safety Manager. Approval is at the complete discretion of San Diego Theatres' management upon prior notification.
- We request all shows provide a list of names for backstage access. Additionally, all road crew or vendors should wear visible access laminates.

SAFETY & SECURITY SERVICES – CONT.

- Security Services will be performed by trained personnel to include San Diego Theatres' staff as well as staff provided by an external security firm. San Diego Theatres has sole discretion as to the hiring of any external security providers contracted for events at the Civic or Balboa Theatres.

For detailed information regarding event Safety and Security, please discuss with the Public Safety team during your advance.
